COVID 19 Contractor COVID Test Onsite Exception Form

This authorization allows a contractor performing essential work at the St Croix Tissue, St Croix Chipping and the Woodland Pulp Mill to bypass the required negative COVID 19 test requirement within 72 hours of coming onsite. The contractor is expected to get a COVID 19 test as soon as reasonably possible even with exception form filled out, but no later than 72 hours of arrival at the facilities. The COVID 19 test result will need to be forwarded to the Mill's PIC (contractor coordinator) and Mill Health / Medical department when received.

Person requesting Exception to required negative COVID 19 Test

Company _____

Name (print) _____ Signature: _____

IGIC Employee – Contract coordinator

Name (print) _____ Signature: _____
